

REPAIR MANAGEMENT SERVICES

SERVICE

Repaircraft was established in 1949 and specialises in providing a nationwide and worldwide management service for Aerospace and Defence equipment rotatable repair.

RANGE

In addition to providing a straightforward equipment repair service Repaircraft can also offer an all inclusive rotatables repair management service for a complete inventory or range of equipments. Unit Exchange and Loan schemes can also be provided.

PRICES

Fixed price or strip and survey on a "case by case" basis.

MANAGEMENT

Technical data, equipment status, tracking and inventory control are fully integrated to provide fast turn around times (TAT's). Computerised planning and risk management ensure the reliable and efficient execution of contracts.

COMMUNICATION

On-Line status reports with Electronic Data Interchange (EDI) to customers can be provided if required.

QUALITY ASSURANCE APPROVAL

ISO 9001: 2008 / NATO AQAP 2110
